

Project Brief

[Start Assignment](#)

- Due 2 May by 23:59
- Points 10
- Submitting a file upload
- Attempts 0
- Allowed attempts 2
- Available 2 Mar at 0:00 - 4 May at 23:59

Due date: 2nd May 2026, 23:59

Mark Allocated: 10% of your final mark

Team-based assessment

Task overview

Only one member of the team is to submit the **project brief**. The main goal of the **project brief** is to summarise the outcomes of the discovery phase, which will then provide your team with a basis for the implementation phase of the project. The audience for the **project brief** is internal and will be used by the Project Principal/facilitators to provide Summative feedback to your team. This report does count towards your final grade. The task requirements can be found here.

Project Brief: For your project brief submission, the team should identify the tools you will use to build the DevOps pipeline and three environments. You could use something like Jenkins for CI, a build server and test server, and an AWS instance for the Production server. To maintain your code repository, you could use GitHub or any other collaborative tool you feel comfortable using.

In your project brief submission document, please provide a brief explanation of the DevOps server pipeline. Explain each of the tools you have selected to complete your project stating how and why would you use them. Provide a clear explanation justifying your selection of tools.

Submission requirements

Create your template for this project brief based on the requirements below. The body of the report should be organised with clear and consistent headings and sub-headings that make it easy to identify all the information required. Tables and figures should be consistently captioned. The report should contain:

An introduction that reflects your group's collective interpretation of the discovery phase focusing on the:

- Frontpage with the title of your project and your group name
- Table of contents
- Background of the Project
 - Define the DevOps Server Pipeline and deployment to the pipeline
- Project Goals and Objectives
 - Explain clearly what is your project goals and objectives
- Selected tools and their justification
 - Make clear points and details with enough information included.
- Success metrics
 - How will you measure the success of your deployment
- Project Scope and Exclusions
 - Think what are project's in-scope and out-scope steps for successful deployment
- Project Deliverables

Only one group member is required to submit the report on Canvas on behalf of the group.

- Save the report as a PDF with the following filename format: Sem1_Report_Name.pdf
- The due date for the submission is the 2nd May. Earlier submission is encouraged.

Evaluation

The report will evaluate the quality and integration of information. The Project Brief will be reviewed against the attached rubric. This is a **teamwork assessment**, **individual assessments will not be accepted**. make sure you are part of a team allocated from your lab session.

Project Brief

Criteria	Ratings					Pts
Quality, Report writing skills, Spelling and grammar	1.5 Pts Advanced Written project brief with good grammar and spelling throughout the report	1 Pts Proficient Written Project brief with moderate grammar and spelling throughout the report	0.75 Pts Developing Written Project Brief with minor spelling and grammar errors throughout the report	0.5 Pts Pass Written Project Brief with major spelling and grammar errors throughout the report	0 Pts No marks Didn't write a complete project brief	1.5 pts
Quality in Report structure	1 Pts Advanced Followed the structure of the project brief with appropriate headings and proper explanations in place	0.7 Pts Proficient Followed the structure of the project brief with appropriate headings and repeated explanations in places	0.5 Pts Developing Does not follow the complete structure of the project brief with appropriate headings and proper explanations in place	0.3 Pts Pass Does not follow the structure of the project brief with inappropriate headings and improper explanations in place	0 Pts No marks Does not follow the structure of the project brief in an inappropriate form	1 pts
Integration Background of project/ problem statement	2 Pts Advanced Clear description on background of the project and problem statement retains essential characteristics of design problem	1.5 Pts Proficient Description on background of the project and problem statement having unnecessary characteristics of design problem	0.7 Pts Developing Does not clearly describe on background of the project and problem statement (essential characteristics of design problem)	0.5 Pts Pass Does not completely describe the background of the project and problem statement (essential characteristics of design problem)	0 Pts No marks Missing all requirements	2 pts
Integration identify goals / objectives	2 Pts Advanced Listed objectives are aligned with the goal, scope, and	1.5 Pts Proficient Listed objectives are somewhat aligned with the goal,	0.7 Pts Developing Listed objectives are not aligned with goal, scope, and	0.5 Pts Pass Objectives are not listed and aligned with the goal, scope, and	0 Pts No marks Missing all requirements	2 pts

Criteria	Ratings					Pts
	context of the project	scope, and context of the project	context of project.	context of the project.		
Integration identify sucess metrics	1.5 Pts Advanced Clearly described the project sucess metrics and the plan to achieve it	1 Pts Proficient Described the project sucess metrics bu not mentioned the plan to achieve it	0.75 Pts Developing Does not clearly describe the project success metrics and the plan to achieve it	0.5 Pts Pass Does not clearly describe the project success metrics and the missed to discuss the plan to achieve it	0 Pts No marks Missing all requirements	1.5 pts
Project scoping and deliverables	2 Pts Advanced Clearly scoped the project outcomes and explained the deliverables	1.5 Pts Proficient Clearly scoped the project but not clear enough on expalining deliverables	0.7 Pts Developing Not clealry scoped the project and explained the deliverables	0.5 Pts Pass Not clearly scoped the project and missed to explain the deliverables	0 Pts No marks Missing all requirements	2 pts
Total points: 10
