

Project Report

[Start Assignment](#)

- Due 30 May by 23:59
- Points 12
- Submitting a file upload
- Attempts 0
- Allowed attempts 2
- Available 2 Mar at 0:00 - 1 Jun at 23:59

Project Report

Due date: 30 May 2026, 23:59

Mark Allocated: 12% of your final mark

Project Report: The team is required to submit a project report providing evidence of completion of the various sub-tasks. The evidence can include screenshots/clear images (labeled with captions), pasted text from console windows, and a description of what you did and any errors/unresolved problems. Also, document how well you were able to complete the project and the lessons learned.

Each team is to submit a final project report.

You should work on this document after you have completed the Project Brief and the presentation. Remember this is your final assessment which allows us to read through your project progress, so use full sentences and avoid jargon and abbreviations. The Final Report should contain the following.

Use the following structure in the document which includes:

- Project Title
- Table of content
- Consultation Phase
 - Project description
 - Project objectives and problem statement
- Preliminary design concept(s)
 - Design and Development
- Compatibility of Design
 - Specifications
 - Data display
 - Code Explanation (images/snapshots and also add your code file separately)
- Project Outcomes

Submission requirements

- Template - Use your own template with headings/ sub-headings/ figures & tables labeled properly/ with a proper explanation on places.
- Number of Words - Expected to have a minimum of 2400 words for 2 members in a team or 3600 words for 3 members in a team (1200 for a team member) limit for the final report.
- Writing - Please follow professional report writing (this unit expects standard report writing with basics).
- Consistency - Please make sure, each section written by each team member should follow the structure of the report (the report should have a consistent flow in delivering the information)
- Co-ordination - Make sure Team members coordinate with others to formulate the report (remove all your names next to sections, don't use just dot points in sections, please explain each section in detail).
- Submission - Only one group member is required to submit the presentation to Canvas on behalf of the group. Add all your team members' names to the report.
- Due date - The **due date for submission is 30th May** by 23:59.

Evaluation of Project Report

The report will be evaluated against the quality and integration of information. The document will be assessed against the attached rubric. This is a **teamwork assessment, individual assessment will be not be accepted**. make sure you are part of a team allocated from your lab session.

Final Report

Criteria	Ratings					Pt
Quality. Context of/Purpose for Writing, Report writing skills, Spelling and grammar	2 Pts Advanced Demonstrates a thorough understanding of context, audience, and purpose that is responsive to the assigned task(s) and focuses all elements of the work.	1.5 Pts Proficient Demonstrates adequate consideration of context, audience, and purpose and a clear focus on the assigned task(s) (e.g., the task aligns with audience, purpose, and context).	1 Pts Developing Demonstrates less awareness of context, audience, purpose, and the assigned tasks(s) (e.g., begins to show awareness of audience's perceptions and assumptions).	0.5 Pts Pass Demonstrates minimal attention to context, audience, purpose, and to the assigned tasks(s) (e.g., expectation of instructor or self as audience).	0 Pts No evidence Demonstrates no attention to context, audience, purpose, and to the assigned tasks(s) (e.g., an expectation of instructor or self as audience).	2 p
Integration – Background of project and problem statement	2 Pts Advanced Describes project clearly and concisely with background, problem statement and objectives	1.5 Pts Proficient Project background, problem statement, and objectives are adequately formulated and articulated.	1 Pts Developing Describes Project background, problem statement, and objectives are not detailed enough to an acceptable standard.	0.5 Pts Pass Describes Project background, problem statement, and objectives are not detailed and not enough to a basic standard.	0 Pts No evidence Fails to describe Project background, problem statement and objectives clearly	2 p
Compatibility of Design – Demonstration of recommended solutions	3 Pts Advanced The expected project design is clearly running without any issues (no coding errors found).	2 Pts Proficient The expected project design is running to an expected level of achieving required components with issues (few requirements are not met).	1.5 Pts Developing The expected project design is running with moderate issues (more requirements are not met). The project has not achieved at least 4 required components.	1 Pts Pass The expected project design is running with more issues (more requirements are not met). The project has not achieved at least 2 required components.	0 Pts No evidence The expected project design is not running and has not achieved the required components.	3 p
Preliminary Design and Development	3 Pts Advanced Clearly describes preliminary design and development phase with links to the project objectives and outcomes.	2 Pts Proficient Sound description of preliminary design and development phase look like, with some connections to the project objectives and outcomes.	1.5 Pts Developing Begins to describe what a successful preliminary design and development phase look like, with limited connection to the project objectives and outcomes.	1 Pts Pass Begins to describe what a successful preliminary design and development phase look like, with no connection to the project objectives and outcomes.	0 Pts No evidence Does not describe successful preliminary design and development phase	3 p
Executive summary of project solution/outcome	2 Pts Advanced The summary of the project is well-articulated. Clearly describes how this project's objectives and scope links to the final outcome/prototype/desing.	1.5 Pts Proficient The summary of the project is explained clearly with a few descriptions of the project's objectives and scope links to the final outcome/prototype/design.	1 Pts Developing The summary of the project is not explained clearly with fewer descriptions of the project's objectives and scope links to the final outcome/prototype/design.	0.5 Pts Pass The summary of the project is not explained clearly with descriptions of the project's objectives and scope not exactly linked to the final outcome/prototype/design.	0 Pts No evidence Missing the summary of the project and descriptions of the project's objectives/scope links to the final outcome/prototype/design.	2 p
